

Select Time Zone

Learn how to set the time zone to be used for time-stamping entries in the print history, shipment plans, and shipment plan reports. All entries will be stamped using a single time zone, regardless of warehouse address or shipping address.

Set the time zone in 2D Transit

Click your 2D Transit username in the upper-right portion of the page and select Settings from the drop-down menu to navigate to the [Settings page](#).

On the Settings page, click the **Time Zone** menu item to navigate to the [Time Zone page](#).

From the **Select Time Zone** drop-down menu, select your preferred time zone for reporting purposes. The default time zone is (GMT -7:00) America/Los_Angeles. Click the **Save** button when done.
