# DIRECT TO FBA LABELING

**2DTransit Enterprise Amazon Solutions**

**WE BUILD**

---

# EFFICIENCIES

With the adoption of 2D labeling at Amazon, Channel Precision thought it necessary to develop a solution that allowed for brands and sellers alike to easily implement a direct-to-FBA shipping strategy.

With 2D Transit, your shipments are checked into FBA faster and more accurately. You also save 10 cents per package on Amazon fees!

# OUR STORY

## ... SO FAR

At Channel Precision, we are not just a software development company. We are a team of Amazon experts who built our business by developing the most robust Amazon solutions in the world.

### We think **CREATIVELY**

We couldn't find a really good software option for 2D labeling, so we decided to develop our own.

### We stand for **SIMPLICITY**

We understand logistics. That's why we designed 2DTransit to be easy to use and easy to understand for any warehouse team.

### We built it with **THOUGHT**

2D Transit was extensively developed and tested by one of the largest Amazon sellers in the world to ensure it was perfectly designed.

### We empower **YOU**

Our technical support staff is always on hand to help, and our developers listen to your feedback and implement the features you want.

# HOW TO MAKE

## 2D TRANSIT WORK FOR YOU

2D Transit creates the label that gets your FBA inventory shipped to Amazon's warehouse and checked in fast without manual processing fees.

## SHIPMENT PLANS

Import a file for faster bulk label creation.

Filter results to view new, ongoing, completed, shortage, or canceled purchase orders.

Imported Date	Imported By	WH	Shipment ID	PO Name	Total SKUs	Unit Status	Complete Rate	Actions
03/02/2021, 07:12 AM					1	Total: 1 Remaining: 1	0.00%	<a href="#">View Report</a>
03/02/2021, 07:11 AM					100	Total: 202 Remaining: 202	0.00%	<a href="#">View Report</a>
03/02/2021, 06:11 AM					285	Total: 2028 Remaining: 2028	0.00%	<a href="#">View Report</a>
03/02/2021, 06:11 AM					211	Total: 844 Remaining: 844	0.00%	<a href="#">View Report</a>
03/02/2021, 06:11 AM					141	Total: 758 Remaining: 758	0.00%	<a href="#">View Report</a>
03/02/2021, 06:10 AM					42	Total: 404 Remaining: 404	0.00%	<a href="#">View Report</a>
03/02/2021, 06:01 AM					57	Total: 279 Remaining: 129	53.76%	<a href="#">View Report</a>
03/01/2021, 10:36 AM					26	Total: 78 Remaining: 54	30.77%	<a href="#">View Report</a>
03/01/2021, 10:36 AM					21	Total: 93 Remaining: 81	12.90%	<a href="#">View Report</a>

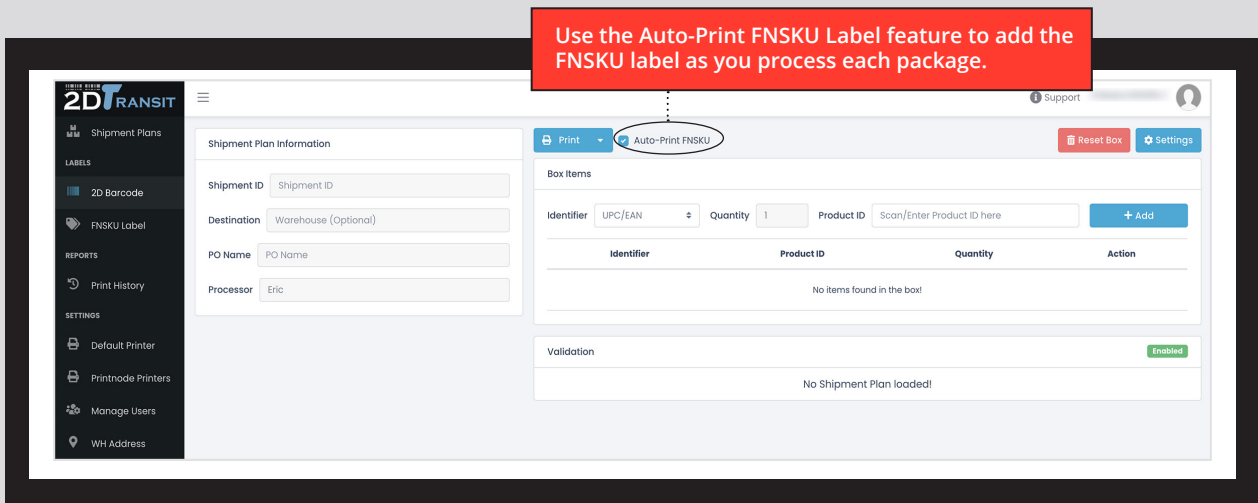

The Shipment Plans summary page shows all Purchase Orders (POs) and their current status. Use the search bar to find specific POs by Shipment ID or PO Name and check their completion rate.

## IMPORT A SHIPMENT PLAN

Choose a template format (Seller Central FBA or Vendor Default) to tell our system how to interpret your file.

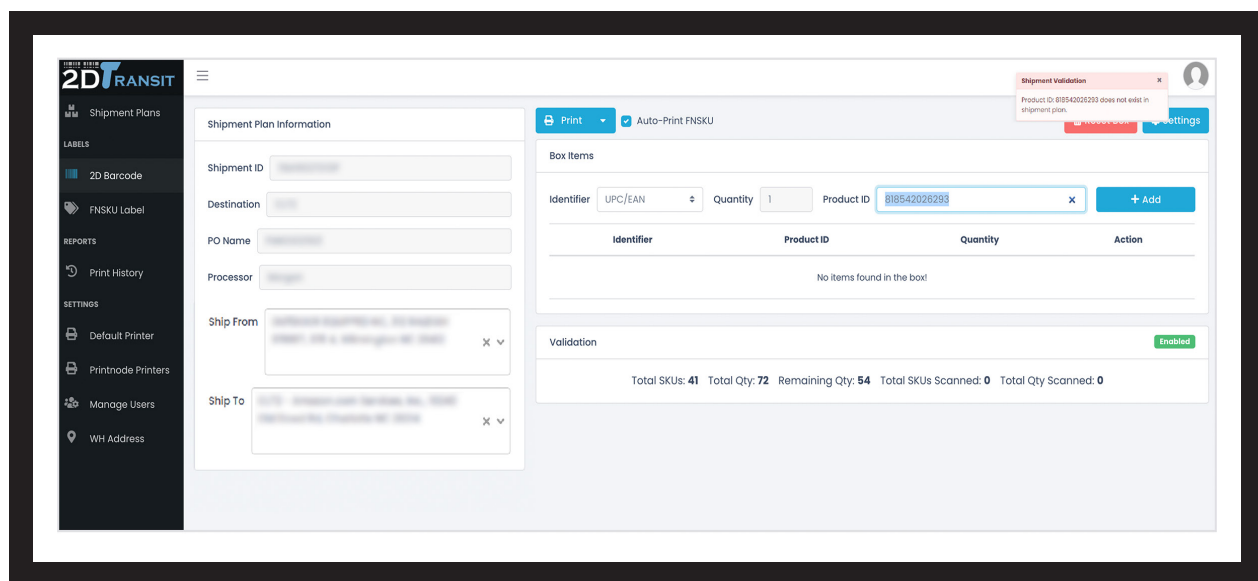

Use the Import function to upload a Microsoft Excel file for faster 2D Label creation in bulk. For more details on the import process, consult our [Import File Creation Instructions](#) and our [Vendor Default Upload Instructions](#) on our website.

## 2D BARCODE

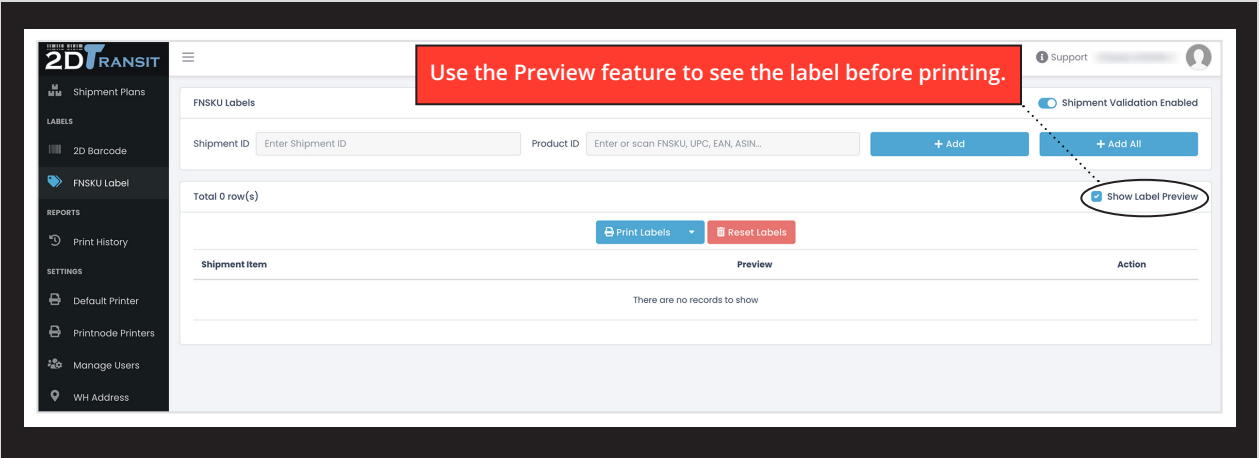

*Click the 2D Barcode menu item to create your 2D Labels from the 2D Barcode page. Simply fill out the Shipment Plan Information fields and select an Identifier type (UPC/EAN, FNSKU, ASIN, ISBN) from the dropdown menu. Then scan or manually enter a product ID to Add a product to your box.*

## SAFETYNET SHIPMENT VALIDATION

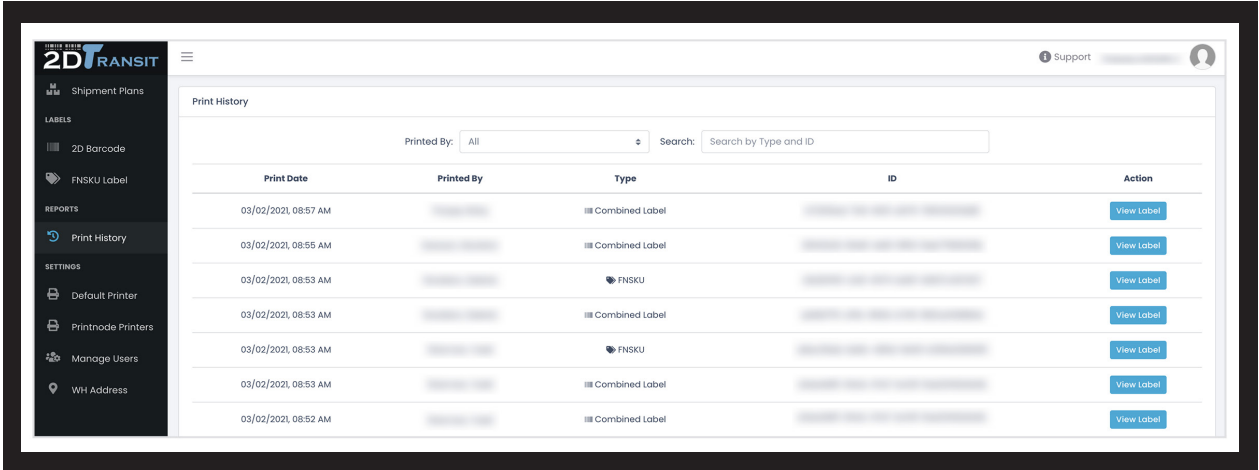

*If you scan the wrong item, SafetyNet will alert you and stop you from adding the item to the shipment. This can save time and money, as Amazon does not like products they were not expecting.*

# FNSKU LABEL

Use the FNSKU tab to print Amazon FNSKU item labels. This feature can reduce commingling of products at FBA and ensure your legitimate product is getting to the customer.

# PRINT HISTORY

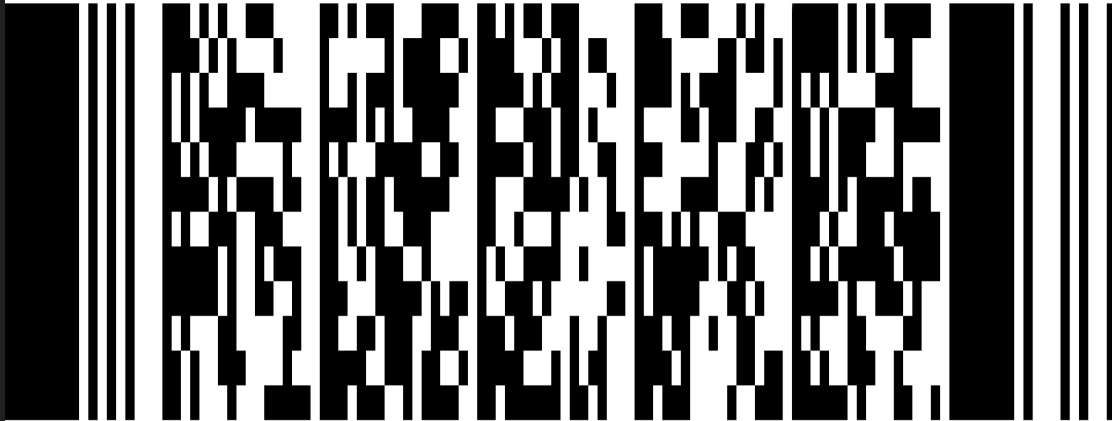

Use the Print History tab to review previously generated labels or to see who printed them and when.

## LEVERAGE AN FBA DIRECT STRATEGY TO GET YOUR PRODUCTS UP FOR SALE FASTER AND SAVE ON FEES

### GET PRODUCT INTO AMAZON FASTER

With the use of 2D carton content labels, get priority at an Amazon Fulfillment Center and get your products checked in faster.

### SAVE ON AMAZON PACKAGE FEES

Amazon charges a 10-cent manual processing fee for every package without a 2D Label. With 2D labels, you expedite receiving and save on fees.

### AUTOMATE LABEL PRINTING

Automatic Printing allows quick turnaround when scanning products in bulk.

### ENSURE A PERFECT OUTPUT WITH SafetyNet

SafetyNet takes the stress out of adding products. If a product is not on your shipping plan, you will receive an alert to correct your mistake before Amazon denies your shipment.

### EMPOWER YOUR PARTNERS

Use a Primary login for internal access to all products and partner brands. Share a Secondary login with partners to restrict their access so they only see their own shipments.

### ADD FNSKU TO PROTECT YOUR INVENTORY

Use FNSKU labels for each product to prevent commingling of product at the Amazon Fulfillment Center and avoid negative feedback due to product counterfeiting and quality issues.

 <p><b>2D Content</b></p> <p>Automatic 2D content label printing on box completion</p>	 <p><b>FNSKU Barcode</b></p> <p>Integrated simultaneous FNSKU barcode printing while scanning inventory.
